An incredibly convenient set that embodies all the latest trends in the production of high-quality PC accessories! The set includes a wireless keyboard and mouse, both perfectly compatible with Windows and Mac OS. The stable wireless connection allows you to work up to 10 meters away. The power-saving technology significantly extends the battery life. The keyboard features help you work comfortably without disturbing others due to its ergonomic design, classic form factor with a numeric pad, silent low-force key switches, and 13 multimedia functions. The wireless mouse is equally comfortable for the right and left hands, covered with durable, pleasant-touch material. Great assistants for those who want to be productive and distraction-free!
