Remote switch

Operate the devices in your home
with the push of a button.

With the **devolo remote switch**, your smart home is more
versatile than ever before! Switch your device groups on or off
at the touch of a button, finally have the light switch at the right
place or transfer your entire house to night mode at the touch of a
button – the devolo remote switch makes it possible.

devolo

Remote switch

Product features:

- Up to four programmable buttons for operating selected Home Control components, e.g. switching all lights on/off or heating on/off.
- Easily control individual Home Control components, groups or scenarios at the touch of a button.
- Versatile installation via adhesive film or screws (both in the scope of delivery). No drilling, no mess!
- With two different rocker switches (2 or 4 programmable buttons).
- Easily programmable via an app or on the computer.
- Individually expandable at any time with other devolo Home Control components.
- Future-proof thanks to standardised Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if the remote switch activates the „Good Morning Scene"

then the radiator thermostat heats the bathroom

and the switch and meter socket turns the coffee machine on
