

devolo

Home Control

Motion detector

Discreet, alert, smart.

The **devolo motion detector** can be installed in an array of applications in almost no time – without cables or drilling. It reliably detects movement and even identifies the difference between pets, people and objects.

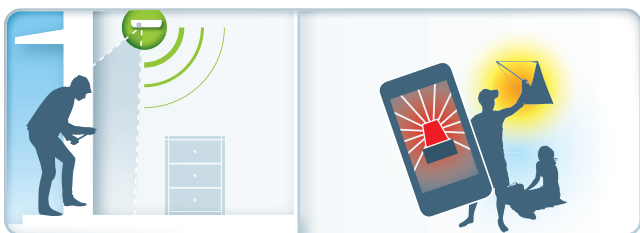

Motion detector

Product features:

- Reliably identifies movements of people, animals and objects.
- Versatile installation via adhesive film or screws (both in the scope of delivery).
- Notifications on smartphone, tablet and computer in the case of a detected movement.
- Continuous brightness measurement, e.g. as feedback to the light controls.
- Intuitive operation via an app for smartphone, tablet and computer.
- Unobtrusive design for inconspicuous placement.
- Individually expandable at any time with other devolo Home Control components.
- Future-proof thanks to standardised Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if

the motion detector recognises movement (a break-in)

then

the alarm will reach you via text message or e-mail if you are on holiday.
